Dear Governor Perry:

The attached information confirms that the US House of Representatives has passed H.R. 4844 titled the "Federal Election Integrity Act."

As a long time Precinct Chair and Election Judge in Dallas County, I urge you to immediately call for Texas legislative action to implement the same election integrity in Texas, even if it requires a special session.

We have all seen the massive marches in Texas and other states where illegal immigrants have been protesting any effort to control their illegal entry to this country. The sad fact is that the promoters have conducted voter registration actions at those events. Everyone knows that there have been thousands of voters registered at those events who are illegal, and will get away with voting in this next election.

I know that the Dallas County Elections Office feels their hands are tied in attempting to verify the legitimacy of voters appearing at the polls, in view of the fact that all new voter registrations are submitted to the Texas Attorney General's office for verification. But the fact is that the Texas Attorney General's office is not adequately staffed to instantly verify the fact of citizenship and social security numbers BEFORE the November 7 election, meaning that there will be hundreds of thousand illegal immigrants voting in this election.

Is there any way that you as Governor can issue an interim Executive Order that will authorize Texas county election offices to require a legitimate government recognized photo ID in order to vote in Texas, including the national General Election on November 7? Even the use of a Texas drivers license is an inadequate qualification for this purpose.

The insane practice of Texas allowing a "Motor-Voter Registration" is a perfect setup for illegals to receive a voter registration certificate, simply because they secured a Texas drivers license. I urge you to demand that the Texas Legislature in its next session pass legislation to terminate the "Motor-Voter Registration" practice. That is another Democrat effort to flood the polling places with illegal immigrants voting in Texas.

Thank you for your urgent attention to this critical matter of returning INTEGRITY to citizen voting in the State of Texas

Edwin W. Hickson

House Passes H.R. 4844, the Federal Election Integrity Act

On Wednesday, September 20, 2006, the U.S. House of Representatives passed the Federal Election Integrity Act of 2006 by a vote of 228-196. As the legislative session winds to a close, H.R. 4844 is another part of the House GOP national security strategy devised to show political support for securing the nation at its borders and now at the ballot box. H.R.4844 seeks to prevent fraud in the election process by requiring photo identification for voters in federal elections. All states will be mandated to check voters' photo identification by the November 2008 election. By November 2010, states will only be allowed to accept photo identification that was issued upon presenting proof of citizenship. Eligible voters who cannot pay for identification cards will be provided one by the state at no charge. Costs for such a mandate will be reimbursed by the federal government.

A recent NBC/Wall Street Journal poll showed 81% of those surveyed favored an ID requirement for voting. In another poll conducted by Rasmussen, 77% of likely voters across the country agree that displaying a photo ID should be required to cast a vote. A number of states have already acted to require voters to follow proof of citizenship. In Phoenix, Arizona, registration went up 15% after passing a referendum requiring voters to prove citizenship when registering to vote. These changes encourage citizens to vote and discourage illegal voting.

Congressman Vernon Ehlers (R-MI) said in a statement. "Every day millions of Americans show a picture ID to pay by check, board a plane, or buy alcohol or tobacco. Surely, the sanctity of the ballot warrants as much protection as these activities. Requiring people to show an ID to prove their citizenship and eligibility will protect the vote, and help restore confidence in our system."

Governor Perry,

You promised in your State of the State address that you would support taking action regarding the Illegal Aliens in this state who are bankrupting our social services resources, voting illegally, increasing gangs, increasing the violent crime against US citizens and finding sanctuary in some cities in blatant defiance and disregard for US and Texas law. Governor Perry, you must call a Special Session of the 81st Texas Legislature without delay to pass legislation which would save the lives of Texans from every political party, every race, and every walk of life.

Texans have spoken and 70+ % demand that their families (and their futures) be protected NOW without further delay.

Too many lives have been lost at the hands of criminal illegal aliens. When the Federal government fails in its responsibility to secure the population, it is then the job of the Governor and the Texas Legislature to see that Texas communities and families are protected.

We do NOT want to become another California - I am expecting you to do the job for which you were elected - uphold your Oath of Office, Governor, call a Special Session of the 81st Texas Legislature and take action to get these bills passed!

Governor YOU said, quote:

1. "I also support an end to the notion of sanctuary cities. Local government sends the wrong message when they pick and choose what laws they want their piece officers to enforce."

Sen. Dan Patrick introduced SB 358 to address ending "sanctuary city" policies in Texas.

2. "We should also track the citizenship status of those receiving state-funded services so we can get our hands around the financial impact of Washington's failure to handle the immigration challenge."

Rep. John Zerwas introduced HB 276 which would have required State agencies to report the costs associated with services provided to illegal aliens.

3. "Originating in foreign countries and taking shape in our prisons, these gangs have been radiating outward into our towns, schools, and neighborhoods, applying terror tactics to build their influence."

Sen. John Carona introduced SB 11, SB 366, SB 369, SB 371, and SB 423 (and additional related bills left pending in committee) to deter the growth of transnational gangs.

4. "I believe we should also require the same identification procedure for voting that we require for voter registration. A democracy without proper protections against voter fraud cannot preserve the public trust."

Sen. Troy Frazer introduced SB 362 and Rep. Betty Brown introduced IIB 125 to address the increasing concern of voter fraud and election integrity in Texas.

Governor Perry, uphold your Oath of Office, Texans elected you to do the job. Call a Special Session and include in your proclamation the subject of immigration reform" which should deal with the important issues mentioned above.

Expecting your action to uphold your integrity,
Mrs. Kelly Howell

I am reliably informed that one does not need to be a US Citizen to obtain a Texas Driver's License. Therefore, a TDL can not be used to prove citizenship for the purpose of voting. It can be used as a photo ID, but must be presented as an adendum rather than as proof of voter qualification. Suggest that action be taken (executive order) to identify those documents that provide proof of citizenship as a prerequisite to voting.

I am asking this as a citizen and as a Precinct Chairman (0306), and as an Election Judge.

The Honorable Rick Perry
Governor of Texas
State Insurance Building, 1100 San Jacinto

Governor Perry:

Gentlemen:

Inasmuch as the voter ID cards are now up for discussion, I kindly ask that you do everything you can to INSIST that every person in America who votes has a valid, legal and well documented voter ID card.

Illegal aliens from all walks of life keep entering this country - most of them are from Mexico. As you know, illegal aliens are continuing to enter our country like a tsunami. When does it stop? Our country is so close to being overtaken it is petrifying.

Please take out your wallet and see how many forms of identification you already have to validate your citizenship, your right to drive, your medical card, your bank debit and/or credit card, a LONE STAR CARD, your social security card - how hard was it to obtain these various information documents? NOT hard at all. Getting a Voter ID card is not a problem that would keep ANY legal American from voting. Kids in school have picture identification cards on them every minute they are in school - if NOT, the kids get fines.

Please make voter ID mandatory. We are trying to save the United States of America. We elected you to represent Americans and we pay you to do that. ARE you, in fact, being an American, by the people and FOR the people of the United States??

Sincerely,

What plan if any does the governor have to prevent/stop illegal aliens from voting in Texas?

Is the governor hearing the outcry from the citizens here in Texas that WE WANT THE BORDER CLOSED AND ILLEGALS DEPORTED?

Those illegals who are currently incarcerated in our jails, prisons and mental institutions should be first to go.

Employers who are currently employing illegal aliens should all split the FULL COST to educate the children of their illegal hires. They should also split the FULL COST for health care and other social services they are draining here in Texas.

The Honorable Rick Perry
 Governor of Texas
 PO Box 12428
 Austin, TX 78711-2428

Governor Perry:

I realize that this topic will probably not be enduring to the various elected officials but one can see that our Texas Voter Registration Codes are flawed! The fact that one only has to attest that he or she is a U.S. Citizen is a total farce. How many illegal aliens are registered to vote? I venture to say that no one has the slightest idea. The only follow up to the citizenship requirement in Texas is that the voter registration list is used for selecting the jury pool. Under current Texas law, each month the clerk of the court sends a list of all jurors who were disqualified due to lack of citizenship to the voter registrar. The voter registrar then must check whether any of these names appears on the registration rolls. If any of the disqualified jurors are registered to vote, then the voter registrar sends the voter a notice and a request for proof of citizenship. If there is no response from the voter in 30 days showing proof of citizenship, the voter's registration is canceled. In addition to the criminal offense of a false statement from the voter, the Election Code also provides a criminal offense that applies to anyone who helps a

voter make a false statement. See Section 13.007: § 13.007. FALSE STATEMENT ON APPLICATION. (a) A person commits an offense if the person knowingly makes a false statement or requests, commands, or attempts to induce another person to make a false statement on a registration application. (b) An offense under this section is a Class B misdemeanor. (c) For purposes of this code, an offense under this section is considered to be perjury, but may be prosecuted only under this section. The penalty for such action is as follows. § 12.22. CLASS B MISDEMEANOR. An individual adjudged guilty of a Class B misdemeanor shall be punished by: (1) a fine not to exceed \$2,000; (2) confinement in jail for a term not to exceed 180 days; or (3) both such fine and confinement. My concerns are not only are election laws being jeopardized but our legal system is seriously flawed. I just contacted the District Court Clerk for my district and asked what proof of citizenship was required to be a juror. Her answer was "NONE", therefore the entire citizenship requirement is a sham. Unfortunately the vast majority of the American public does not realize that they are being scammed. Here is an excerpt of a letter that I just received from the Elections Division Staff of the Texas Secretary of State. "Our office has worked over the years to enforce the U. S. citizenship requirement, but in a manner that will not intimidate persons who are eligible to vote. The Texas and federal system, in general, is designed to make registration easy for a voter, and that goal is served both by mail-in and agency registration procedures. Simply put, the system depends on the voter's word for most of the information in the first application to make it fast and easy for voters to apply. After that, the voter's status is subject to investigation. In that context, however, please know that our office and the Texas Legislature have tried to answer the concerns of citizens like you, as follows." I trust that you will do your part in rectifying this National problem. I have researched the Election Codes of several States and this is a National problem that can only be solved by both the State Legislatures and Congress.

Sincerely,

Dear Mrs. Mickan:

Thank you for contacting the Office of the Governor.

Please note that all voters in Texas must be United States citizens residing in Texas. All applicants must provide either a driver's license, personal identification number or Social Security as proof of citizenship. For additional information on registration efforts in Texas, I am forwarding a copy of your correspondence to Secretary of State Roger Williams, for his staff's assistance with your concerns. Additionally, I have enclosed information on voting in Texas for your review.

Please let us know if we may assist you in the future.

Sincerely,
